A Respondent shall be required to demonstrate the ability and resources necessary to perform the scope of services requested.

City shall conduct a comprehensive, fair and impartial evaluation of all proposals received, in response to this SOQ, within forty five (45) days of receipt of the proposals. It currently is anticipated City shall appoint and utilize a selection committee to perform said evaluation.

- Ed Belmares, Assistant City Manager, City Manager’s Office
- Frank Miller, Director, Aviation Department
- Loyce Clark, Assistant Director, Aviation Department
- Jeff Rodriguez, Capital Programs Manager, Transportation & Capital Improvements Department

BACKGROUND

The FIS at the San Antonio International Airport (hereafter referred to as “SAIA”) originally was constructed in 1983 and is significantly undersized to accommodate the increased number of passenger demands of today and the future. Space in the FIS is inadequate to process arrivals consistent with today’s U.S. Customs standards. Furthermore, public facilities and support space are in need of attention to meet the growing volume of international arrivals utilizing the SAIA.

The existing FIS facility shall be renovated and expanded to 39,000 square feet and shall be accomplished in two phases of work. Phase I of the work shall include the construction, renovation and expansion of the FIS space from approximately 25,000 square feet to more than 36,000 square feet and shall have the capacity to serve up to 600 passengers per peak hour, as defined in the U.S. Department of Homeland Security, CBP and Airport Technical Design Standards, Passenger Processing Facilities, dated June 2012. Improvements shall include new functional space, offices, expanded and refurbished toilets fixtures and finishes, new elevators, escalators, floor, wall and ceiling surfaces. In addition, improvements shall include new and enhanced HVAC, mechanical, electrical, plumbing, fire protection, security and surveillance and monitoring systems, lighting, wayfinding, furnishings, fixtures, baggage conveyors and transfer devices/systems, apparatus and equipment required and defined in construction documents for the purpose of processing passengers and

performing the required administrative duties and responsibilities of the CBP. Phase I is projected to be completed in 2018.

Phase II of the work shall include the expansion of the improved FIS facility, completed as part of Phase I work efforts. The FIS area shall be expanded by roughly 3,000 additional square feet within the existing Terminal A. The work shall be a continuation of activities included in the Phase I scope of work. This Phase II shall include the demolition of existing offices and counters currently occupied by various rental car agencies utilized in the processing of passenger pick-up and return of vehicles. Work for Phase II shall not begin until current rental car agency occupants have vacated to other facilities.

Design of the FIS for both phases of work shall be accomplished in a single design, scheduled to begin in early 2015. Design shall define scope of work for the two phases, prepare initial preliminary documents, devise concepts and produce construction documents representing the requirements of CBP and Aviation. Once design construction documents are completed, the selected Respondent shall bid and obtain a Guaranteed Maximum Price (hereafter referred to as "GMP") reflecting both Phase I and Phase II construction activities. With approval and receipt of a Notice to Proceed, Respondent shall commence with construction of Phase I, as defined by the construction documents (plans and specifications). Respondent must guarantee to maintain the GMP for Phase II not greater than one year after the completion of Phase I construction. The selected Respondent shall join the Project during the preliminary design stage and provide pre-construction related services through the completion of the design efforts.

Construction may include multiple packages. to include, but not be limited to, demolition of existing facilities, infrastructure improvement work involving potential rerouting of various utility lines, site development and building the FIS structure.

The selected Respondent shall work with the design consultant in the preparation of phasing documents, to facilitate the effective construction of the FIS while daily operations continue. The prepared phasing plan must be adapted as necessary to allow construction to occur. It is anticipated construction shall require phasing, in order to maintain the Airport customs operations and allow airport customers ongoing use of existing facilities. The Project team, including the City, CBP, the selected Respondent and the design team, shall determine the final phasing schedule. During the construction phase, the Project shall need coordination with Aviation, TCI, CBP and other entities involved with the delivery or the approval of the work. Construction for Phase I of the FIS is expected to be completed for occupancy by early 2018. Completion of Phase II work is expected by May 2020.

Purpose /Intent

Aviation's intent is to renovate and expand the existing FIS facility, located in Terminal A of the SAIA Airport and operated by the U.S. Department of Homeland Security and CBP, for the purpose of processing passengers entering into the United States of America aboard aircrafts landing at the SAIA. The renovation and expansion shall be accomplished in accordance with requirements of the Aviation Department, CBP and the ordinances and requirements of City. Selected Respondent's employees having access to construction documents shall be required to sign Department of Homeland Security Non Disclosure Agreement (DHS Form 11000-6 (8-04) prior to viewing such documents. Improvements shall be consistent with finishes and approved material standards adopted and installed

16. Solicitation Review Process: Any respondent desiring a review of the solicitation process must deliver a written request to the Director of TCI within 7 calendar days from the date the notice of non-selection was sent. When the TCI Director receives a timely written request, the TCI Director, or designee, shall review the respondents concerns and the solicitation process for legitimacy and procedural correctness. After performing a full review, the TCI Director will notify the respondent in writing of his determination.

17. Debriefings: In an effort to improve solicitation responses, TCI is making available on its web site a "Solicitation Response Tip List" that includes the top common items that "make or break" submittals. Providing this information prior to the due date of the submittal provides Respondents with an opportunity to develop a better response for each solicitation. As a result of this up-front effort, each Respondent is entitled to a one (1) debriefing per calendar year after the San Antonio City Council has made an award if:

(a) they are not the selected respondent; and

(b) they have not been debriefed since January 1, 2014.

XI. SBEDA ORDINANCE COMPLIANCE PROVISIONS

A. Solicitation Response and Contract Requirements and Commitment

Respondent understands and agrees that the following provisions shall be requirements of this solicitation and the resulting contract, if awarded, and by submitting its Response, Respondent commits to comply with these requirements.

Waiver Request - Respondent may request, for good cause, a full or partial Waiver of a **specified subcontracting goal** included in this solicitation by submitting the *Respondent Subcontracting Waiver Request* form (*available at* <http://www.sanantonio.gov/SBO/Forms.aspx>) with its solicitation response. The Respondent's Waiver request must fully document Sub-Contractor unavailability despite the Respondent's good faith efforts to comply with the goal. Such documentation shall include all good faith efforts made by Respondent including, but not limited to, which Sub-Contractors were contacted (with phone numbers, e-mail addresses and mailing addresses, as applicable) and the method of contact. **Late Waiver requests will not be considered.**

Exception Request - Respondent may, for good cause, request an Exception to the application of the SBEDA Program if Respondent submits the *Exception to SBEDA Program Requirements Request* form (*available at* <http://www.sanantonio.gov/SBO/Forms.aspx>) with its solicitation response. Respondent's Exception request must fully document why: (1) the value of the contract is below the \$50,000 threshold for application of the SBEDA Program; or (2) no commercially-useful subcontracting opportunities exist within the contract scope of work; or (3) the type of contract is outside of the scope of the SBEDA Ordinance. **Late Exception Requests will not be considered.**

B. SBEDA Program

City has adopted a Small Business Economic Development Advocacy Ordinance (Ordinance No. 2010-06-17-0531 and as amended, also referred to as "SBEDA" or "the SBEDA Program"), which is posted on the City's Economic Development (EDD) website page and is also available in hard copy form upon request to the City. The SBEDA Ordinance Compliance Provisions contained in this section of the Agreement are governed by the terms of this Ordinance, as well as by the terms of the SBEDA Ordinance Policy & Procedure Manual established by the City pursuant to this Ordinance, and

any subsequent amendments to this referenced SBEDA Ordinance and SBEDA Policy & Procedure Manual that are effective as of the date of the execution of this Agreement. Unless defined in a contrary manner herein, terms used in this section of the Agreement shall be subject to the same expanded definitions and meanings as given those terms in the SBEDA Ordinance and as further interpreted in the SBEDA Policy & Procedure Manual.

C. Definitions

Affirmative Procurement Initiatives (API) – Refers to various Small Business Enterprise, Minority Business Enterprise, and/or Women Business Enterprise (“S/M/WBE”) Program tools and Solicitation Incentives that are used to encourage greater Prime and subcontract participation by S/M/WBE firms, including bonding assistance, evaluation preferences, subcontracting goals and joint venture incentives. (For full descriptions of these and other S/M/WBE program tools, see Section III. D. of Attachment A to the SBEDA Ordinance.)

Centralized Vendor Registration System (CVR) – a mandatory electronic system wherein the City requires all prospective Respondents and Sub-Contractors that are ready, willing and able to sell goods or services to the City to register. The CVR system assigns a unique identifier to each registrant that is then required for the purpose of submitting solicitation responses and invoices, and for receiving payments from the City. The CVR-assigned identifiers are also used by the Goal Setting Committee for measuring relative availability and tracking utilization of SBE and M/WBE firms by Industry or commodity codes, and for establishing Annual Aspirational Goals and Contract-by-Contract Subcontracting Goals.

Certification or “Certified” – the process by which the Small Business Office (SBO) staff determines a firm to be a bona-fide small, minority-, women-owned, or emerging small business enterprise. Emerging Small Business Enterprises (ESBEs) are automatically eligible for Certification as SBEs. Any firm may apply for multiple Certifications that cover each and every status category (e.g., SBE, ESBE, MBE, or WBE) for which it is able to satisfy eligibility standards. The SBO staff may contract these services to a regional Certification agency or other entity. For purposes of Certification, the City accepts any firm that is certified by local government entities and other organizations identified herein that have adopted Certification standards and procedures similar to those followed by the SBO, provided the prospective firm satisfies the eligibility requirements set forth in this Ordinance in Section III.E.6 of Attachment A.

Commercially Useful Function – an S/M/WBE firm performs a Commercially Useful Function when it is responsible for execution of a distinct element of the work of the contract and is carrying out its responsibilities by actually performing, staffing, managing and supervising the work involved. To perform a Commercially Useful Function, the S/M/WBE firm must also be responsible, with respect to materials and supplies used on the contract, for negotiating price, determining quantity and quality, ordering the material, and installing (where applicable) and paying for the material itself. To determine whether an S/M/WBE firm is performing a Commercially Useful Function, an evaluation must be performed of the amount of work subcontracted, normal industry practices, whether the amount the S/M/WBE firm is to be paid under the contract is commensurate with the work it is actually performing and the S/M/WBE credit claimed for its performance of the work, and other relevant factors. Specifically, an S/M/WBE firm does not perform a Commercially Useful Function if its role is limited to that of an extra participant in a transaction, contract or project through which funds are passed in order to obtain the appearance of meaningful and useful S/M/WBE participation, when in

similar transactions in which S/M/WBE firms do not participate, there is no such role performed. The use of S/M/WBE firms by CONTRACTOR to perform such “pass-through” or “conduit” functions that are not commercially useful shall be viewed by the CITY as fraudulent if CONTRACTOR attempts to obtain credit for such S/M/WBE participation towards the satisfaction of S/M/WBE participation goals or other API participation requirements. As such, under such circumstances where a commercially useful function is not actually performed by the S/M/WBE firm, the CONTRACTOR shall not be given credit for the participation of its S/M/WBE sub-Contractor or joint venture partner towards attainment of S/M/WBE utilization goals, and the CONTRACTOR and S/M/WBE firm may be subject to sanctions and penalties in accordance with the SBEDA Ordinance.

Evaluation Preference – an API that may be applied by the Goal Setting Committee (“GSC”) to Construction, Architectural & Engineering, Professional Services, Other Services, and Goods and Supplies contracts that are to be awarded on a basis that includes factors other than lowest price, and wherein responses that are submitted to the City by S/M/WBE firms may be awarded additional Points in the evaluation process in the scoring and ranking of their proposals against those submitted by other prime Contractors or Respondents.

Good Faith Efforts – documentation of the Contractor’s or Respondent’s intent to comply with S/M/WBE Program Goals and procedures including, but not limited to, the following: (1) documentation within a solicitation response reflecting the Respondent’s commitment to comply with SBE or M/WBE Program Goals as established by the GSC for a particular contract; or (2) documentation of efforts made toward achieving the SBE or M/WBE Program Goals (e.g., timely advertisements in appropriate trade publications and publications of wide general circulation; timely posting of SBE or M/WBE subcontract opportunities on the City website; solicitations of bids/proposals/qualification statements from all qualified SBE or M/WBE firms listed in the Small Business Office’s directory of certified SBE or M/WBE firms; correspondence from qualified SBE or M/WBE firms documenting their unavailability to perform SBE or M/WBE contracts; documentation of efforts to subdivide work into smaller quantities for subcontracting purposes to enhance opportunities for SBE or M/WBE firms; documentation of a Prime Contractor’s posting of a bond covering the work of SBE or M/WBE Sub-Contractors; documentation of efforts to assist SBE or M/WBE firms with obtaining financing, bonding or insurance required by the Respondent; and documentation of consultations with trade associations and Contractors that represent the interests of SBE and/or M/WBEs in order to identify qualified and available SBE or M/WBE Sub-Contractors.) The appropriate form and content of Contractor’s Good Faith Efforts documentation shall be in accordance with the SBEDA Ordinance as interpreted in the SBEDA Policy & Procedure Manual.

Without limitation, Contractor further agrees to the following terms as part of its contract compliance responsibilities under the SBEDA Program:

1. E. SBEDA Program Compliance – Affirmative Procurement Initiatives

The City has applied the following contract-specific Affirmative Procurement Initiatives to this contract. Contractor hereby acknowledges and agrees that the selected API requirement shall also be extended to any change order or subsequent contract modification and, absent SBO's granting of a waiver, that its full compliance with the following API terms and conditions are material to its satisfactory performance under this Agreement:

SBE Prime Contract Program. In accordance with the SBEDA Ordinance, Section III. D. 1. (a), this contract is being awarded pursuant to the SBE Prime Contract Program, and as such, Contractor affirms that if it is presently certified as an SBE, Contractor agrees not to subcontract more than 49% of the contract value to a non-SBE firm, and

M/WBE Subcontracting Program. In accordance with SBEDA Ordinance Section III. D. 2. (b), this contract is also being awarded pursuant to the M/WBE Subcontracting Program. Contractor agrees to subcontract at least **nineteen percent (19%) the amount indicated on the Subcontractor/Supplier Utilization Commitment Form for this project** of its prime contract value to certified M/WBE firms headquartered or having a Significant Business Presence within the San Antonio Metropolitan Statistical Area (SAMSA). The Sub-Contractor/Supplier Utilization Plan which Contractor submitted to City with its response for this contract (or, as appropriate, that it agrees to submit during the price proposal negotiation phase of this contract), and that contains the names of the certified M/WBE Sub-Contractors to be used by Contractor on this contract, the respective percentages of the total prime contract dollar value to be awarded and performed by each M/WBE Sub-Contractor, and documentation including a description of each M/WBE Sub-Contractor's scope of work and confirmation of each M/WBE Sub-Contractor's commitment to perform such scope of work for an agreed upon dollar amount is hereby attached and incorporated by reference into the material terms of

this Agreement. In the absence of a waiver granted by the SBO, the failure of Contractor to attain this Sub-Contractor goal for M/WBE firm participation in the performance of a Commercially Useful Function under the terms of its contract shall be a material breach and grounds for termination of the contract with City, and may result in debarment from performing future City contracts and/or shall be subject to any other remedies available under the terms of this Agreement for violations of the SBEDA Ordinance, or under any other law and,

Segmented M/WBE Goal. In accordance with SBEDA Ordinance Section III. D. 2. (d), this contract is being awarded pursuant to Segmented M/WBE Goals. Contractor agrees to subcontract at least **two percent (2%) the amount indicated on the Subcontractor/Supplier Utilization Commitment Form for this project** of its prime contract value to certified African American Business Enterprise (AABE) firms headquartered or having a significant business presence within the San Antonio Metropolitan Statistical Area (SAMSA). This two percent (2%) subcontracting goal will also count toward the aforementioned nineteen percent (19%) M/WBE subcontracting goal. The Subcontractor / Supplier Utilization Plan that Contractor submitted to City with its response for this contract (or, as appropriate, that it agrees to submit during the price proposal negotiation phase of this contract), and that contains the names of the certified AABE Sub-contractors to be used by Contractor on this contract, the respective percentages of the total prime contract dollar value to be awarded and performed by each AABE Sub-contractor, and documentation including a description of each AABE Sub-contractor's scope of work and confirmation of each AABE Sub-contractor's commitment to perform such scope of work for an agreed upon dollar amount is hereby attached and incorporated by reference into the material terms of this Agreement. In the absence of a waiver granted by the SBO, the failure of Contractor to attain this subcontracting goal for AABE firm participation in the performance of a Commercially Useful Function under the terms of its contract shall be a material breach and grounds for termination of the contract with the City, and may result in debarment from performing future City contracts, withholding of payment for retainage equal to the dollar amount of the underutilization below the agreed upon AABE subcontracting goal, and/or shall be subject to any other remedies available under the terms of this Agreement for violations of the SBEDA Ordinance, or under any other law.

Subcontractor Diversity: The City of San Antonio strongly encourages each bidder to be as inclusive as possible, and to reach out to all segments of the M/WBE community in its efforts to exercise good faith in achieving the M/WBE subcontracting goal of 19% and AABE subcontracting goal of 2% that have been established for this contract. While the relative availability of ready, willing, and able firms within various ethnic and gender categories will vary significantly from contract to contract based upon the particular trades that are involved, overall in the San Antonio Construction industry, as reflected in the City's Centralized Vendor Registration system for the month of August 2014, African-American owned firms represent approximately 2.51% of available sub-contractors, Hispanic-American firms represent approximately 17.10%, Asian-American firms represent approximately 1.09%, Native American firms represent approximately 0.32%, and Women-owned firms represent approximately 5.01% of available construction sub-contractors.

F. Commercial Nondiscrimination Policy Compliance

As a condition of entering into this Agreement, the Contractor represents and warrants that it has complied with throughout the course of this solicitation and contract award process, and will continue to comply with, the City's Commercial Nondiscrimination Policy, as described under Section III. C. 1. of the SBEDA Ordinance. As part of such compliance, Contractor shall not discriminate on the basis of race, color, religion, ancestry or national origin, sex, age, marital status, sexual orientation or, on the basis of disability or other unlawful forms of discrimination in the solicitation, selection, hiring or commercial treatment of Sub-Contractors, vendors, suppliers, or commercial customers, nor shall the company retaliate against any person for reporting instances of such discrimination. The company shall provide equal opportunity for Sub-Contractors, vendors and suppliers to participate in all of its public sector and private sector subcontracting and supply opportunities, provided that nothing contained in this clause shall prohibit or limit otherwise lawful efforts to remedy the effects of marketplace discrimination that have occurred or are occurring in the City's Relevant Marketplace. The company understands and agrees that a material violation of this clause shall be considered a material breach of this Agreement and may result in termination of this Agreement, disqualification of the company from participating in City contracts, or other sanctions. This clause is not enforceable by or for the benefit of, and creates no obligation to, any third party. Contractor's certification of its compliance with this Commercial Nondiscrimination Policy as submitted to the City pursuant to the solicitation for this contract is hereby incorporated into the material terms of this Agreement. Contractor shall incorporate this clause into each of its Sub-Contractor and supplier agreements entered into pursuant to City contracts.

G. Prompt Payment

Upon execution of this contract by Contractor, Contractor shall be required to submit to City accurate progress payment information with each invoice regarding each of its Sub-Contractors, including HUBZone Sub-Contractors, to ensure that the Contractor's reported subcontract participation is accurate. Contractor shall pay its Sub-Contractors in compliance with Chapter 2251, Texas Government Code (the "Prompt Payment Act") within ten days of receipt of payment from City. In the event of Contractor's noncompliance with these prompt payment provisions, no final retainage on the Prime Contract shall be released to Contractor, and no new City contracts shall be issued to the Contractor until the City's audit of previous subcontract payments is complete and payments are verified to be in accordance with the specifications of the contract.
